

### About the Composer

**Andrew Boysen Jr.** (b. 1968) is presently a professor in the music department at the University of New Hampshire, where he conducts the wind symphony and teaches conducting and composition. Under his leadership, the UNH wind symphony has released six recordings and been invited to perform at regional conventions of the College Band Directors National Association and National Association for Music Education. Previously, Boysen taught at Indiana State University and Cary-Grove (IL) High School, and was the music director and conductor of the Deerfield Community Concert Band. He remains active as a guest conductor and clinician, appearing with high school, university and festival ensembles across the United States, Great Britain, and Australia.

Boysen earned his Doctor of Musical Arts degree in wind conducting at the Eastman School of Music, where he served as conductor of the Eastman Wind Orchestra and assistant conductor of the Eastman Wind Ensemble. He received his Master of Music degree in wind conducting from Northwestern University in 1993 and his Bachelor of Music degree in music education and music composition from the University of Iowa in 1991.

He maintains an active schedule as a composer, receiving commissions from festival, university, and high school concert bands across the United States. Boysen won the International Horn Society Composition Contest in 2000, the University of Iowa Honors Composition Prize in 1991 and has twice won the Claude T. Smith Memorial Band Composition Contest, in 1991 and 1994. Boysen has several published works with the Neil A. Kjos Music Company, Wingert-Jones Music, Alfred Music, Masters Music, and C. Alan Publications, including pieces for band, orchestra, clarinet and piano, and brass choir. Recordings of his music appear on the Sony, R-Kal, Mark, St. Olaf and Elf labels.

### About the Composition

When John Mooney approached me about writing a piece for the East Central Missouri District 7 Honor Band, his request came with the rather unusual idea of writing a short work for soloist and band that could be structured in such a way that any instrument could serve as the soloist. Personally, I enjoy the challenge of trying something new with each piece that I compose and so I eagerly accepted this opportunity. Almost immediately, I had the additional idea of using a narrator and allowing the soloist to sort of “comment” upon the words that were spoken, an idea that would also permit for the use of a vocalist as soloist as well.

The choice of text for the piece came because I had recently finished my Symphony No. 8, which uses poems written in action during World War I by the British poet Wilfred Owen. In the course of reading Owen’s poetry, I had reread John McRae’s *In Flanders Fields*, an incredibly powerful and moving poem that was composed on May 3, 1915 from the battlefield in Ypres, Belgium. I continued to reflect on McRae’s poignant and evocative words as I began to consider my commission for the East Central Missouri District 7 Band when I realized that the premiere for the piece would be over Veterans Day weekend, an ideal opportunity to recognize and support the sacrifices made by members of our military.

The poem is structured in three stanzas, each of which assumes a somewhat different tone and perspective, which I tried to reflect in the structure of the piece. I used a consistent four measure harmonic progression throughout much of the work, initially as a more reflective (and at the end, hopeful) rising pattern of F major, G minor, A minor, and B $\flat$  major. In the darker middle portion of the work, I essentially inverted the progression, constructing a descending pattern of D minor, C major, B $\flat$  major, and A minor.

*In Flanders Fields* was premiered on November 11, 2017, with me conducting the East Central Missouri District 7 Honor Band.

—Andrew Boysen Jr.

## Notes to the Conductor

*In Flanders Fields* can be performed in two ways: with any wind soloist, narrator and band, or with vocal soloist (soprano, alto, tenor, bass) and band. In the first version, the narrator speaks the words of John McCrae's poem in between phrases from the instrumental soloist. If using a vocalist, the words are sung as lyrics to the instrumental solo melodies. Solo parts and piano accompaniment are included in the full set.

## Adjustments to the Solo Part

The melody in the solo instruments sometimes requires slight adjustments to accommodate the instrument's range. The most common version of the solo melody is printed in the score (along with the ossia staff). The printed solo parts already include these changes, but they are included here for the conductor's reference.

## In Flanders Fields by John McCrae (1872–1918)

In Flanders fields the poppies blow  
Between the crosses, row on row,  
That mark our place; and in the sky  
The larks, still bravely singing, fly  
Scarce heard amid the guns below.

We are the Dead. Short days ago  
We lived, felt dawn, saw sunset glow,  
Loved and were loved, and now we lie  
In Flanders fields.

Take up our quarrel with the foe:  
To you from failing hands we throw  
The torch; be yours to hold it high.  
If ye break faith with us who die  
We shall not sleep, though poppies grow  
In Flanders fields.

\*Parts have been provided for each wind instrument and and voice part to perform the solo. If using a wind instrument, please also use a narrator. If using a vocal soloist, omit the narrator and have a soloist from the band play the passage from measure 61–70. Ideally, the soloist should be placed in the back of the hall, behind the audience, or as nearly so as is possible. The narrator should not be visible and, ideally, should be amplified through the house speaker system.

## Kjos Music's Guide to © Copyright

---

Composers rely on the income that their compositions generate, and it is the job of the copyright holder to protect the work from infringement. Copyright laws can be pretty tricky to navigate, so here are a few helpful tips to guide you through the process.

### Adjudicator Copies

During contest and festival season, the majority of the inquiries we receive concern making photocopies of scores to meet specific requirements for the judges at a festival.

If you're performing a concert selection out of one of our method books (*Tradition of Excellence*, *String Basics: Steps to Success*, *First Place for Jazz*, among others), permission may already be given to make the necessary photocopies for judges at these festivals. Please refer to the notices printed in the teacher score on the specific piece.

If a student is performing a solo from one of the method books listed above, permission is already given. In addition, a photocopy may be given to the accompanist.

Extra scores for our band and string repertoire (*Beginning BandWorks*, *BandWorks*, *Conservatory Editions*, *StringTracks*, and *Steps to Successful Literature*, among others) are available for purchase from your favorite music dealer. If you're performing a work from a series that's not listed above, please contact us for permission.

### Making an Audio or Video Recording

A license is required any time you make an audio or video recording of a copyrighted work. Audio recordings are compulsory, meaning we can't deny your request; you just need to apply for the Mechanical License and pay the royalty. The royalty rate is set by the Library of Congress. For current rates, please visit [www.copyright.gov](http://www.copyright.gov).

The license to make a video of a performance, known as a Synchronization License, is not compulsory. Permission must be obtained from the copyright holder before distributing any copies, regardless if they are being sold or given away for free.

### Arranging for Marching Band or Another Ensemble

We're pleased to grant licenses to make a marching band (or other) arrangement of one of our concert works. However, permission is required before work can begin, and there are a few works whose composers have indicated that they do not want their compositions to be altered. Please contact us to make sure the piece you're interested in is available for licensing.

If you're planning to play the original piece without **any** alterations or additions, then a license isn't needed. However, for example, if you're rewriting the brass parts for marching instruments (mellophones, bugles), or adding marching percussion, or making cuts, adding repeats, or creating a medley with another composition, a license is required.

### What If I Want To ... ?

If you'd like to use a composition in **any** other way, please contact us and we would be glad to advise you.

Contest and festival season is a busy time for our Copyright Office. Please contact us at least **three weeks** before your concert date so that we may help you in time. Please visit [www.kjos.com](http://www.kjos.com) and click on the Licensing tab to find out more information or to submit a license request.

We're so pleased that you've chosen to perform one of our pieces! We appreciate your support and we want to make the licensing process as easy as possible for you.
